Statement of intent

«Hospital Name» orients every new person — staff, volunteer, student or trainee — to the hospital and to their specific role before they are left to work unsupervised.

1. Purpose

This policy explains what induction training covers at «Hospital Name» and when it is completed.

This policy does not cover ongoing professional training, job-specific clinical training, or performance appraisal — those are covered in other hospital policies.

2. Scope

This policy applies to the HR In-Charge / Personnel Officer, department heads, and every staff member, consultant, outsourced worker, volunteer, student and trainee joining «Hospital Name».

3. Policy standards

«Hospital Name» provides induction training within one month of joining, covering the hospital's vision and values, staff and patient rights, safety, CPR, infection control, service standards, administrative procedures, department-level policies, and information-systems use.

4. Non-negotiable rules

1. Do not let a new staff member, consultant, outsourced worker, volunteer, student or trainee go without induction training within one month of joining.
2. Cover every required induction topic for every new staff member: vision/mission/values, staff and patient rights, safety, CPR, infection control, service standards, administrative procedures, department-level orientation, and information-systems training.
3. Do not let department-level orientation be skipped in favour of organisation-level induction alone.
4. Staff who see any of these rules broken report it the same shift to the HR In-Charge / Personnel Officer or the Medical Superintendent.

5. What we do

5.1 Provide induction within one month

«Hospital Name» provides induction training to its staff, including doctors, consultants (including visiting), outsourced staff, volunteers, students and trainees, oriented to the hospital and to their specific assignment. Induction is completed within one month of joining and covers every topic in 5.2 through 5.9. Contents may be issued as a booklet; separate induction may run at organisational and departmental level. The HR In-Charge / Personnel Officer keeps the training record.

5.2 Orient to vision, mission and values

Induction includes orientation to the hospital's vision, mission and values, so that staff — including outsourced staff — are aware of and can correctly interpret them.

5.3 Cover staff and patient rights

Induction includes awareness of staff rights and responsibilities and of patient rights and responsibilities, so that staff can comprehend the implications of both and can identify and report a violation of patient rights when it occurs.

5.4 Train on safety

Induction includes training on safety — patient, visitor and staff safety, including the hospital's emergency codes.

5.5 Train on CPR

Induction includes training on cardio-pulmonary resuscitation. At minimum, doctors, nursing staff, technologists and rehabilitation staff are trained to at least basic life support; doctors and nurses in intensive care or high-dependency units undergo appropriate advanced training (for example ACLS, PALS or NRP, or an equivalent). A staff member with a valid existing training certificate does not need to repeat it.

5.6 Train on infection prevention and control

Induction includes training in hospital infection prevention and control — the policies, procedures and practices of the infection prevention and control programme.

5.7 Orient to service standards

Induction includes orientation to the hospital's service standards, so that staff are trained to implement them.

5.8 Orient to administrative and department-level procedures

Induction includes an orientation on administrative procedures — attendance, leave, conduct and similar matters — and awareness of organisation-wide policies. It also includes an orientation on the policies and procedures of the specific department, unit, service or programme the staff member will work in, delivered at that level.

5.9 Train on information systems

Staff are trained on information systems, information security, information use and management, according to their job responsibility, job description and data and information needs. Where the hospital uses electronic health records, staff who access, review or document in the EMR are trained to ensure it is used correctly.

6. Governance and responsibility

Role	Responsibility
HR In-Charge / Personnel Officer	Owns the induction schedule, content and training records at organisational level.
Department heads	Deliver department/unit/service-level induction content.
Medical Superintendent	Accountable that this policy is followed.

7. Quality monitoring

The HR In-Charge / Personnel Officer reviews a sample of induction records periodically against the steps in Section 5, confirming every required topic was covered within one month of joining. This policy itself is reviewed every year.

8. Training and staff acknowledgement

Staff covered by this policy are trained on it when they take up the role, and again every year after that.

I have read the Policy on Staff Induction Training of «Hospital Name». I will follow the processes described.

Staff name	Designation	Signature	Date
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____

9. Distribution

HR In-Charge / Personnel Officer; department heads; Medical Superintendent.

10. Abbreviations

Abbreviation	Meaning
ACLS	Advanced Cardiac Life Support
CPR	Cardio-Pulmonary Resuscitation
EMR	Electronic Medical Record
HCO	Hospital (Full Accreditation programme under NABH Hospitals 6th Edition)
HR	Human Resources
HRM	Human Resource Management (NABH Hospitals 6th Edition chapter)
NABH	National Accreditation Board for Hospitals and Healthcare Providers
OE	Objective Element
NRP	Neonatal Resuscitation Program
PALS	Paediatric Advanced Life Support

11. Traceability to NABH HCO Full Accreditation 6th Edition HRM.3

This table is an index. It is not how the policy is organised. An asterisk in the Level column means documentation of the process is required.

OE	Level	Requirement	Where addressed	Responsible
HRM.3.a	CORE	Staff are provided with induction training.	Section 3; 5.1	HR In-Charge / Personnel Officer
HRM.3.b	Commitment	The induction training includes orientation to the organisation's vision, mission and values.	Section 3; 5.2	HR In-Charge / Personnel Officer
HRM.3.c	Commitment	The induction training includes awareness on staff rights and responsibilities and patient rights and responsibilities.	Section 3; 5.3	HR In-Charge / Personnel Officer
HRM.3.d	Commitment	The induction training includes training on safety.	Section 3; 5.4	HR In-Charge / Personnel Officer
HRM.3.e	Commitment	The induction training includes training on cardio-pulmonary resuscitation for staff.	Section 3; 5.5	HR In-Charge / Personnel Officer
HRM.3.f	Commitment	The induction training includes	Section 3; 5.6	HR In-

	ent	training in hospital infection prevention and control.		Charge / Personnel Officer
HRM.3.g	Commitment	The induction training includes orientation to the service standards of the organisation.	Section 3; 5.7	HR In-Charge / Personnel Officer
HRM.3.h	Commitment	The induction training includes an orientation on administrative procedures.	Section 3; 5.8	HR In-Charge / Personnel Officer
HRM.3.i	Commitment	The induction training includes an orientation on relevant department / unit / service / programme's policies and procedures.	Section 3; 5.8	Department heads
HRM.3.j	Commitment	Staff is trained on information systems, information security, information use and management.	Section 3; 5.9	HR In-Charge / Personnel Officer

12. Required Records / Evidence Checklist

HRM.3.a — Induction training provided.

- Induction-training record within one month of joining.
- Attendance record covering doctors, consultants, outsourced staff, volunteers, students and trainees.
- Induction-content record covering HRM.3.b–j.

HRM.3.b — Vision, mission and values orientation.

- Vision, mission and values orientation record within induction.
- Staff-awareness confirmation record.

HRM.3.c — Staff and patient rights and responsibilities.

- Staff-rights and patient-rights training record.
- Violation-identification-and-reporting awareness confirmation.

HRM.3.d — Safety training.

- Safety training record — patient, visitor, staff safety, emergency codes.
- Emergency-code awareness confirmation.

HRM.3.e — CPR training.

- CPR training record at the appropriate level (BLS minimum; advanced for ICU/HDU staff).
- Valid-certificate exemption record, where applicable.

HRM.3.f — Infection prevention and control training.

- Hospital infection prevention and control training record within induction.

HRM.3.g — Service standards orientation.

- Service-standards orientation record within induction.

HRM.3.h — Administrative procedures orientation.

- Administrative-procedures orientation record — attendance, leave, conduct.
- Organisation-wide policy-awareness record.

HRM.3.i — Department/unit-level orientation.

- Department, unit, service or programme-level policy-and-procedure orientation record.
- Delivery-location record confirming it was given at that level.

HRM.3.j — Information systems training.

- Information-systems, security and data-use training record.
- EMR-access training record, where the hospital uses electronic health records.
