

Standard Operating Procedure

Adverse Drug Reaction and Medication Error Reporting

«Hospital Name» — Supports MOM.8.c (CORE), MOM.8.d, MOM.8.e, MOM.8.f

SOP No.	[Hospital to define]	Version	1.0
Effective Date	_____	Review Frequency	Annual, or on change
Prepared By	Quality Coordinator Name: _____ Signature: _____		
Approved By	Medical Superintendent Name: _____ Signature: _____		

1. Purpose

This SOP describes how «Hospital Name» identifies, documents, reports, analyses, and acts on near misses, medication errors, and adverse drug reactions.

2. Scope

Applies to every near miss, medication error, and adverse drug reaction, anywhere in the hospital.

3. Responsibility

Staff Member Identifying the Event: documents and reports it within the defined time frame.

Medication Management Committee: collects, analyses, and drives corrective action.

4. Procedure

1. Identify the event against the hospital's definitions of near miss, medication error, and adverse drug reaction.
2. Document it in the patient record and on the incident reporting form immediately.
3. Report it within the hospital's defined time frame — reporting is not optional and is never delayed pending an internal discussion about fault.
4. The committee analyses the report, with pharmacist or clinical pharmacologist involvement wherever possible.
5. Where indicated, conduct a root-cause analysis and implement corrective/preventive action, with a responsible person and closure date recorded.
6. For a serious or unexpected adverse drug reaction, also report it to the Pharmacovigilance Programme of India through the nearest ADR Monitoring Centre.

5. Records

Supported by all 6 records in the MOM.8 Required Records pack.

6. Related Documents

- HCO_MOM_8_v2_REWRITE_DRAFT — MOM.8 policy

7. Review

Reviewed annually, and immediately after any serious or unexpected adverse drug reaction.
